

Scientific Collaboration between Iran and USA
National Research Council Project

This letter specifies an agreement between Research Center for Gastroenterology and Liver Diseases, Shaheed Beheshti University of Medical Sciences, Tehran, Iran represented by *Professor Mohammad Reza Zali* and *Dr. William E. Keene* from Department of Human Services, Portland, Oregon, USA respectively. This agreement recognizes the desire of both parties to work together on the topic of:

"Enteric Disease Surveillance in Iran"

This research will support and strengthen cooperation between Iran and the United States in the area of public health.

This memorandum of agreement is documented in three originals in English, all three texts being equally valid.

Signed and delivered for and behalf of RCGLD and Dr. William E. Keene from the Oregon Department of Human Services.

Place and date: Wednesday 21 Dec. 2005
