

In the name of GOD

I would like to admit that 13 years ago before I came to the Islamic Republic of Iran, I had a medical scholarship for France. But due to the deep relationship and great love to IMAM KHOMEINI, I preferred to come to the IRI. I spent 12 years in Mashhad City and took my general and pediatric specialty medical certificates. Due to the big reputation of Mofid Children Hospital and Shahid Beheshti University of Medical Sciences, and of course due to the fantastic educational reputation of the doctors, I decided to study my fellowship courses in pediatric hematology and oncology in this center.

Mohammad Hammoud

## Curriculum Vita
