Development and Content Validity of a Questionnaire on Peripheral Intravenous Catheter Maintenance and Knowledge of Nursing Professionals Regarding Best Practices

Article Full-text available

Jan 2025

Marie Sylvie Doll · Daniele Cristina Bosco Aprile · Bianka Sousa Martins Silva · [...] · Camila Takao Lopes

The aims of this study were to develop a questionnaire on peripheral intravenous catheter (PIVC) maintenance, evaluate its content validity, and assess factors influencing the level of knowledge of nursing professionals regarding best practices. The study was conducted in 3 stages: (1) development of a questionnaire on PIVC maintenance; (2) content...
